DETAILED ACTION

Claims 1-15 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 1, line 5, is unclear because it is drawn to a method comprising a number of steps, yet only one actual step is recited (that of retrieving information concerning the health of animals); the others are conditional and not performed if a given animal is determined to be healthy. The essential step of ascertaining if at least a portion of each animal has an infection capable of being transmitted to other milking animals is not present, although it is alluded to in claim 1, lines 9-11.

Claims 1-25 are objected to because of the following informalities: In claim 1, line 5, "wherein" should be changed to -comprising-, in line 8, -a- should be inserted after "least"; in claim 5, lines 2, 4, -a- should be inserted after each occurrence of "least," in line 4, "lapsed" should be changed to -elapsed-; in claim 7, line 2, claim 8, line 2, claim 9, lines 2, 3, claim 10, lines 2, 3, claim 11, line 1, claim 12, line 3, claim 13, line 3, claim 14, line 3, claim 15, line 4, claim 16, lines 10, 16, claim 20, line 3, claim 24, line 2, claim 25, line 1, -a- should be inserted after each occurrence of "least"; in claim 16, line 5, "wherein" should be changed to -comprising-. Appropriate correction is required.

Claims 1-15 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Art Unit: 3643

The abstract of the disclosure is objected to because in line 1, the phrase "The present invention refers to a" should be changed to -A-. Correction is required. See MPEP § 608.01(b).

The patents to Peterson (US 3,461,845) and van der Lely et al. (US 5,195,455 and US 6,237,530 B1) have been cited to provide examples of prior art sanitizing and cleaning devices.
